La Cultura delle Culture *Claudia Patrino per la Solidarietà*

The initiative, promoted by RomaCultura.it and by Artists Beyond Borders, takes its cue from Claudia Patrino's sensitivity, one of the promoters and creators of the magazine RomaCultura.it, towards Cultures and wants to promote the knowledge of cultural multiplicity through images and words drawn on a small space.

The theme proposed for this year, in the context of "Culture of Cultures", is:

Walls and ditches, fords and bridges

To break down walls and bridge ditches, create fords and build bridges between cultures for global knowledge, overcoming mistrust and diversity.

Culture is not only knowledge of other cultures: it is progress in dialogue, overcoming obstacles, to achieve a common future, not barricaded on individualistic positions, or closed on a limited learning.

Art as science has found inspiration and new horizons by looking beyond its borders, exchanging ideas and proposing themes and procedures.

Each work must not offend other people or cultures and must not incite hate, discrimination and violence.

Everyone can participate, not only painters, sculptors, photographers, writers, but also employees, peasants and workers, from 18 years and beyond.
